

DUNE PART TWO

Action · 2026 · Dir. Unknown

RELEASE RISK INTELLIGENCE REPORT

96

HIGH RISK

Executive Summary

Dune Part Two — Release Risk Assessment

96 RISK SCORE	Day +3 EST. FIRST LEAK	\$314M REVENUE POTENTIAL	\$115M REVENUE AT RISK
-------------------------------------	--	--	--

RECOMMENDED: GLOBAL SIMULTANEOUS

Switching to Global simultaneous reduces risk from 96 to 76 and extends the estimated leak window from Day 3 to Day 18. Net revenue improves by \$44M (\$199M vs \$243M). India and China are highest-exposure markets — same-day digital release recommended.

Film Parameters

Genre	Action	Budget	\$150M
Director	Unknown	Runtime	120 min
Franchise	Yes	Rating	PG-13
Strategy	Staggered by region	Streaming gap	6 weeks
Lead Cast	N/A	Trailer buzz	60.0M views

Scenario Comparison

Three Strategies — Net Revenue

STRATEGY	RISK	LEAK	REVENUE	AT RISK	NET
Global simultaneous REC	76	D+18	\$341M	-\$98M	\$243M
Staggered by region	96	D+3	\$314M	-\$115M	\$199M
Hybrid release	82	D+10	\$333M	-\$104M	\$229M

Net Revenue Comparison

Territory Risk

Region-by-Region Exposure

TERRITORY	RISK	DELAY	REVENUE	EXPOSURE
North America	42 LOW	Simultaneous	\$94M	-\$15M
United Kingdom	37 LOW	Simultaneous	\$28M	-\$4M
Japan	53 MEDIUM	+14 days	\$35M	-\$7M
India	88 HIGH	+21 days	\$41M	-\$14M
China	90 HIGH	+28 days	\$28M	-\$10M
Brazil	78 HIGH	+21 days	\$28M	-\$8M

HIGH-RISK TERRITORIES

India, China, Brazil — score above 70. Same-day digital release strongly recommended in all these markets.

Recommended Actions

Five Actions to Protect Revenue

01	Switch to Global simultaneous — protects \$44M additional revenue.
02	Close streaming gap from 6 weeks to 4 — removes primary piracy incentive.
03	Prioritise India and China for day-and-date digital — both score above 70 risk.
04	Limit screener distribution to verified press only — implement digital watermarking.
05	Set Day 16 monitoring trigger — execute PVOD price drop if leak detected early.
