

CINEOS × Bureau — Partnership Proposal

Identity + Social Intelligence — Complete Fraud Picture · May 10, 2026

The Gap Bureau Cannot Fill Alone

Bureau verifies **WHO a person is** — KYC, device ID, behavioral biometrics. Bureau cannot see **WHAT that person is doing on Telegram**. A fraudster with a verified Bureau identity can still run 18 fake Zerodha investment channels with 747,000 subscribers. CINEOS fills that gap. Together Bureau + CINEOS = verified identity + verified behavior.

Capability	Bureau	CINEOS	Together
KYC and Identity	✓ Bureau	✗	✓ Bureau
Device fingerprint	✓ Bureau	✗	✓ Bureau
Telegram fraud channels	✗	✓ CINEOS 354 channels	✓ CINEOS
Social media fraud	✗	✓ CINEOS 127 posts	✓ CINEOS
Brand impersonation	✗	✓ CINEOS 18 fake Zerodha	✓ CINEOS
6 Indian languages	Partial	✓ CINEOS full coverage	✓ Both

Shared Clients — Bureau + CINEOS

Bureau's clients include banks, fintechs and insurance companies. CINEOS targets the same segment. Joint pitch to these clients:

- **Zerodha / Groww** — Bureau: KYC of new traders · CINEOS: 18 fake channels using their brand
- **HDFC ERGO / Bajaj** — Bureau: Fraud claims KYC · CINEOS: IRDAI monitoring mandate coverage
- **Paytm / PhonePe** — Bureau: Device + transaction fraud · CINEOS: UPI IDs in fraud channels
- **NPCI** — Bureau: Payment fraud detection · CINEOS: Telegram operator attribution

API Integration Proposal

CINEOS API is live at cinerisk-api-production.up.railway.app. Bureau can call /v1/risk/seller or /v1/auth/product to enrich their identity decisions with social fraud intelligence. When Bureau flags a suspicious device, CINEOS checks if that phone number appears in any of our 354 fraud channels.
